

ISOPRIME™

Primer for Metal

WATERBORNE CORROSION INHIBITING PRIMER

TECHNICAL DATA

Solids (wt.)	57.5%
Vehicle type	Phenolic modified Alkyd
Wt./gal.....	11.25 lbs.
Viscosity.....	1200 cps
Drying time.....	approx. 2 hrs.
Color	Black
Gloss	Med. Low
Coverage	300-600 ft ² /gal.

ISOPRIME™ is a high quality water reducible corrosion inhibiting primer for metal or passivated rusty substrates. **ISOPRIME™** has excellent adhesion to most metal and clean painted surfaces and can be applied by brush or airless spray using a 0.013" to 0.025" tip. Surface should be prepared by removing scale and passivating with **ISOPHOS™** or other phosphating solution.
